

Syllabus Math 106, Quantitative Reasoning Spring 2018 GMU

Instructor: Liz Dinkelman

Office Hours and location: 30 minutes before class outside the classroom. There will also usually be plenty of time in class to ask individual questions.

Email: edinkelm@gmu.edu (please put GMUMath106 somewhere in the subject line)

Text: Mathematical Ideas, by Miller, Hereen and Hornsby, *Custom Edition*, Pearson, 2012 (ISBN: 978-1-256-71962-5) But you do not need to buy the text since it is embedded in MyMathLab.

Calculators: You will need a Scientific Calculator for this course for example, a TI-30.

The textbook bundled with a MyMathLab access code can be purchased in the campus bookstore. Alternatively, the ebook and MyMathLab access code which will provide access to a digital version of the text and the on line tools can also be purchased online (<http://www.mymathlab.com>). It is strongly recommended that you purchase the physical text as most students are more successful using a physical book, and we made the custom edition to reduce the total cost to you.

Homework: We will be using MyMathLab for online homework. Information about registering and using the MyMathLab website is available on the Blackboard site.

MyMathLab Course ID code: **dinkelman16747**

MyMathLab is a powerful online, homework, tutorial and assessment system that accompanies your new textbook. Students can take assessments, and receive personalized study plans based on their results. The study plan diagnoses weaknesses and links students to tutorial exercises for objectives they need to study. In many cases students can also access video clips, PowerPoint presentations, and other animations for each section and from selected exercises.

MyMathLab is NOT a program operated by GMU. If you are experiencing technical difficulties using the program, then you can email or “chat” with Customer Support directly through the Pearson Education Customer Service website. Go to <http://247pearsoned.custhelp.com> for more information. Help is available 24 hours a day, seven days a week. You could also call the Pearson Customer Service and **Technical Support number at 800-677-6337.**

Grading:

Four Tests	80%
Online homework	16%
Math History Timelines	4%

The grading scale will be: A: 90-100%; B: 80-89%; C: 70-79%; D: 60-69%; F: below 60% .
+ or – may be attached to the grade for *approximately* the upper or lower 2 points.

Participation

You may miss 2 classes before your participation will be affected. For each class missed beyond the allowable 2 missed classes your grade will be dropped by 1%. For example, if you miss 5 classes your total final grade will be dropped by 3%.

Course Description: This course meets the quantitative reasoning requirement, one of the Foundation requirements of the University General Education program. The goal of the Foundation requirement is to help ensure that students are equipped with the tools and techniques necessary to succeed in college and throughout their lives and careers.

The learning objectives for this requirement are:

1. Students are able to interpret quantitative information (i.e., formulas, graphs, tables, models, and schematics) and draw inferences from them.
2. Given a quantitative problem, students are able to formulate the problem quantitatively and use appropriate arithmetical, algebraic, and/or statistical methods to solve the problem.
3. Students are able to evaluate logical arguments using quantitative reasoning.
4. Students are able to communicate and present quantitative results effectively.

Disability statement: If you are a student with a disability and you need academic accommodations, please see me and contact the Office of Disability Resources at 703.993.2474. All academic accommodations must be arranged through that office.

Tutoring Center: The Math Tutoring Center is located in the Johnson Center Room 344. Help is available on a walk-in basis. For hours of operation see <http://math.gmu.edu/tutor-center.php>

University Honor Code: You are expected to follow the GMU Honor Code <http://oai.gmu.edu/the-mason-honor-code/>

Below is a tentative schedule for this course.

Week	Topic	Sections Covered
1/22 1/24	Inductive/Deductive Reasoning, Problem Solving and Sets	1.1, 2.1, 2.2
1/29 1/31	Set Theory	2.3, 2.4, 3.1, 3.2
2/5 2/7	Logic	3.3, 3.4, 3.6
2/12 2/14	Logic TEST 1 (2/14)	Catch-up
2/19 2/21	Decimals, Percent and Beginning Counting	6.5, 10.1, 10.2, 10.3
2/26 2/28	Counting and Beginning Probability	10.5, 11.1
3/5 3/7	Probability	11.2, 11.3
3/19 3/21	Probability TEST 2 (3/21)	Catch-up
3/26 3/28	Statistics	12.1, 12.2, 12.3
4/2 4/4	Statistics	12.4, 12.5
4/9 4/11	Statistics TEST 3 (4/11)	Catch-up
4/16 4/18	Algebra Review	7.1, 7.2, 13.1, 13.2
4/23 4/25	Financial Math	13.3, 13.4
4/30 5/2	Financial Math	Catch-up
5/9	FINAL Test #4 – Wednesday May 9, 1:30 – 3:30
