

F.O.C.U.S. Camp 2014 with Veronica Johnson of NBC4

A GMU College of Science Summer Camp for Females Underrepresented in STEM

F.O.C.U.S. is a one-week long summer camp for rising 6th, rising 7th, and rising 8th graders. The camp, designed by the STEM Accelerator Program (GMU), will expose middle school age females to a variety of disciplines in science, technology, engineering, and mathematics (STEM) including:

Biology Physics Mathematics Geography
Geology Forensic Science Chemistry
Design & Innovation Engineering STEAM STEM-H

Throughout the week, the students will learn how to apply critical thinking methods to fun and creative problem solving activities. The **Leadership and Entrepreneurship** component of the camp will give the students an opportunity to meet successful women who currently work for leading organizations and/or own their own businesses.

F.O.C.U.S. 2015 is supported in part by the Business Women's Giving Circle at the Community Foundation for Northern Virginia.
