Time: TR 1:30 - 2:45
Place: Lecture Hall 2
Instructor: Walter Morris
Office: Exploratory Hall, Room 4207
Phone: 993-1481
Office Hours: TR 10:30-12:30
e-mail: wmorris@gmu.edu

Math 125 is a course in Discrete Mathematics. The goal of the course is to improve your ability to recognize and use some important mathematical structures, such as relations, set systems and graphs. The prerequisite for the course is a passing score on the Mathematics Placement Test or C or better in MATH 105 or MATH 108.

There will be two in-class tests, which we will tentatively schedule for February 17 and March 31. Each of the in-class tests determines 25% of the final grade. The final exam is cumulative. It will be given on May 12, at 1:30PM. Three eighths of the final grade is determined by the final exam. There will also be six homework assignments, which will determine one eighth of the grade.

Spring Break is March 9 - 15.
The web page for the class is http://math.gmu.edu/~wmorris/125hw15.html

If you are a student with a disability and you need academic accommodations, please see me and contact the Office of Disability Services (ODS) at 993-2474. All academic accommodations must be arranged through the ODS.

Feel free to come to my office if you have any questions. I check my e-mail daily, so you can also ask questions that way. Be certain that you understand all of the homework assigned and all of the assigned reading, and that you ask questions in or out of class in order to clear up any problems you might have. Bear in mind that the questions that you ask in class help not only you, but also the professor and all of the others who had the same questions but were afraid to speak up.
